

Phone Script

Hi, I'm (Full Name) a member of a high school robotics program called FIRST Tech Challenge.

This year we have won the State competition in both Wisconsin and Minnesota. We will be competing in the World Championships at the end of this month and we need the help of sponsors to get us there.

We would love an opportunity to come in and talk to you about our team goals and give a demonstration of our robot.

You can contact me back at (phone number).
